20130 LAKEVIEW CENTER PLAZA • SUITE 400 • ASHBURN, VIRGINIA 20147

Our Process Automation & Orchestration solution handles thousands of IT and cybersecurity processes out-of-the-box. As the cornerstone of the 20/20Tek Network Operations Center, it incorporates policies and AI to automate traditional NOC tasks saving both time and money.

RUNNING 24/7

- Unified Event Correlation and Risk Management
- Automated Incident Mitigation
- Security Intelligence
- Out-of-the-Box Compliance Reports
- Performance Monitoring
- Availability Monitoring
- Baselining and Statistical Anomaly Detection
- Real-Time Configuration Change Monitoring

20/20 VISION

20/20's secret sauce is our unified event correlation and risk management tool with real-time network analytics. It's a single IT pane of glass for security and compliance.

We work as an extension of your team, monitoring your network 24x7 so you can focus on your core business. Our network experts are based right here in the U.S. and have a track record of exceeding expectations.
